

How to Make Widget Visible on Mobile Devices

Here are the steps to save and publish the widget in mobile editor:

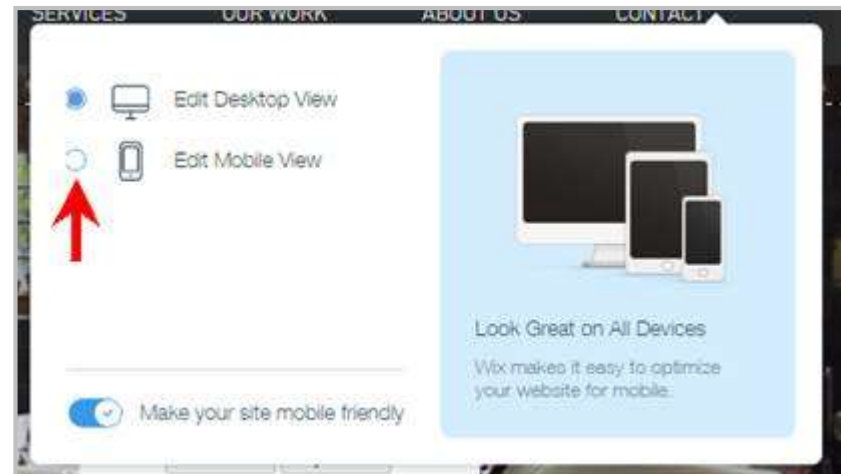

1

Click on the **mobile editor icon** on top right

2

Select '**Edit Mobile View**'

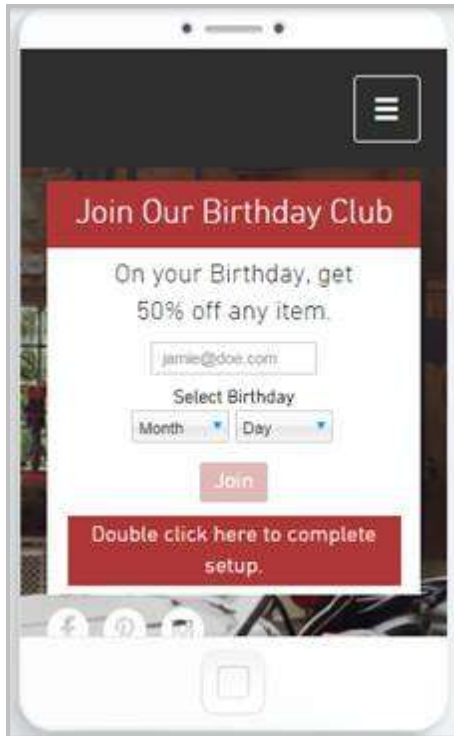

3

Widget will display in mobile editor.

You don't need to do anything.

But mobile editor has to know this widget exists

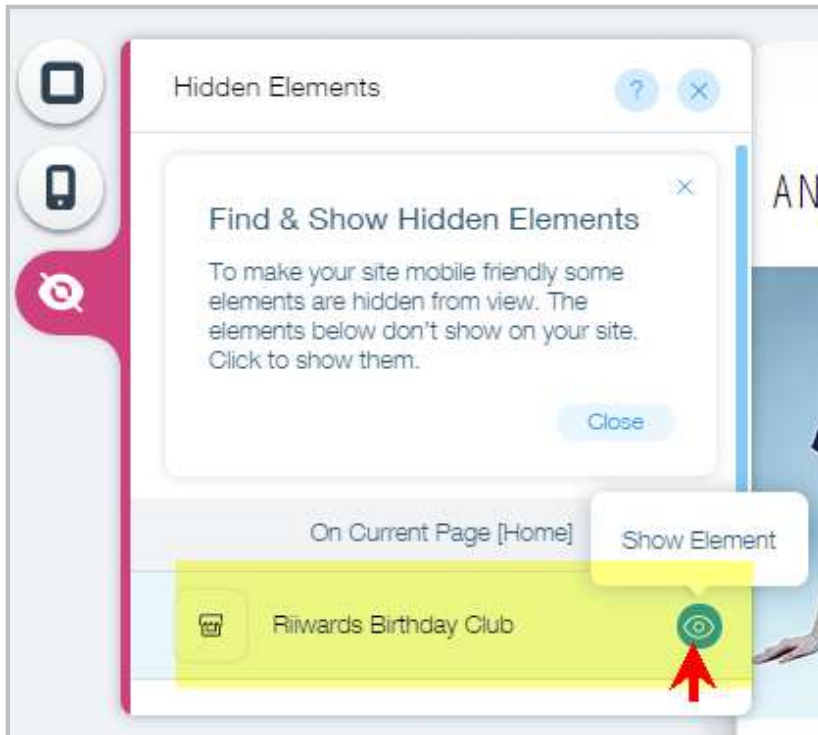

4

Click on **'Hidden Elements'**

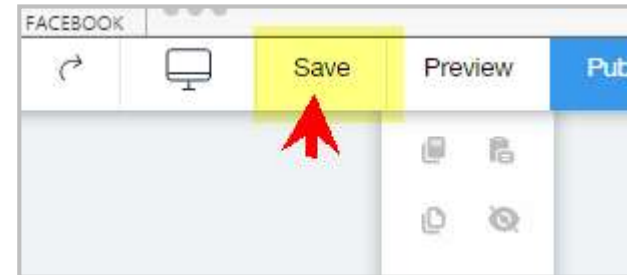

5

Click on '**Riiwards Birthday Club**'

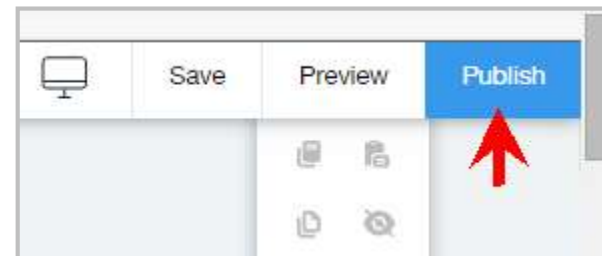

6

Save Mobile View

7

Publish Mobile view

That's it!
